New in the 9th edition:
o UPDATED! Data and major material throughout the text now reflects 2016 statistics and events.
o NEW! Chapter 9 now focuses more on central banks, with four new Global boxes that discuss the ownership of central banks, the importance of the Bundesbank within the European Central Bank, constraints faced by non-Euro central banks in terms of EU membership, and Brexit.
o NEW! Material on financial markets and institutions now includes:
o A new section on hedge funds
o An updated Mini-Case box on negative interest rates in the United States, Europe, and Japan
o An updated case on explaining low interest rates in Europe, Japan, and the United States
o A new Mini-Case box on the tyranny of collateral
o A new section describing securitization and the shadow banking system
NEW! Material on monetary policy reflects the major changes in the way central banks conduct monetary policy since the global financial crisis. We get our solutions manuals directly from their publishers; in short, you will get the original solutions manual. To clarify, this is the solutions manual, not the textbook. These boxes also apply the theory to the data. Emphasize critical thinking with key features:
o Chapter Previews at the beginning of each chapter give students an overview of the chapter, explaining why specific topics are important and how they relate to other topics in the book.
o Numerical Examples guide students through solutions to financial problems using formulas, timelines, and calculator keystrokes.
o Summary Tables are useful study aids for reviewing material.
o Key Statements highlight in boldface type important points so that students can easily find them for later reference.
o Graphs with over 60 captions, help students understand the interrelationship of the variables plotted and the principles of analysis.
o Summaries at the end of each chapter list the chapter's main points.
o Key Terms are important words or phrases set in boldface type when defined for the first time and are listed at the end of each chapter.
o End-of-Chapter Questions help students learn the subject matter by applying economic concepts, and feature a special class of questions that students find particularly relevant, titled Predicting the Future.
o 250+ End-of-Chapter Quantitative Problems help students develop their quantitative skills.
o Web Exercises encourage students to collect information from online sources or use online resources to enhance their learning experience.
o Web Sources provide the URL to data used in the many tables and charts.
o Marginal Web References indicate websites that provide information or data that supplement the text material.
o A Glossary at the back of the book defines all of the key terms.
o Full Solutions to the Questions and Quantitative Problems appear in the Instructor's Manual and on the Instructor's Resource Center online at www.pearsonglobaleditions.com/Mishkin.
